Overview

Welcome to Madina Race, a thrilling 2D endless runner game developed by Marouane Bouallala.

This game was crafted specifically for the 'Games Job Fair Spring 2024 LITE - Unity Engine Programming Challenge'. Get ready for an adrenaline-pumping experience as you navigate through challenging obstacles in this action-packed adventure!

Features

- Endless Runner: Experience the excitement of an endless runner game where the fun never stops.
- Unity Engine: Developed using the powerful Unity Engine, ensuring smooth gameplay and stunning visuals.
- Gyroscope Support: Take advantage of gyroscope-enabled devices to control your character's movements with precision.
- Touch Input: Seamlessly interact with the game using touch gestures, making the experience intuitive and immersive.
- Localization: Madina Race is designed to support multiple languages, catering to a diverse audience worldwide.

Platform

Madina Race is optimized for gyroscope-enabled devices with touch input support, allowing players to enjoy the game on a variety of smartphones and tablets.
